MSc. Social Protection.

Pre course: Statistics.

Pablo Herrera G.

Hochschule
Bonn-Rhein-Sieg
University of Applied Sciences

This is a basic statistics course.

- We will cover the basics of statistics.
- Useful for your future Module on Quantitative Methods (Statistics, Econometrics, Impact Evaluation, and Demography).
- 7 sessions → 7 exercise sheets.

This is a basic statistics course.

- More than a class, this will be a fast review, focused on the exercises. So please do them before each session.
- It will be as applied as possible.
- If you have questions, check the online course: https://www.khanacademy.org/math/ap-statistics
  - Unit 1 (sessions 1 and 2).
  - Unit 2 (sessions 3 and 4).
  - Unit 3 (sessions 5 and 6).
  - Unit 4 (session 7).
